PROFILE

IT Engineering student at UADE and Technology Intern at Personal with hands-on experience delivering backend systems, workflow automation and Linux infrastructure for real operations. Experience across the delivery cycle: requirements, architecture, implementation, deployment, operations and support. Founder of CauchoSoft and IMAS+, UADE's Computer Science Club.

EXPERIENCE

Technology Intern — Personal Sep 2026 — Present

Founder & Backend Developer — CauchoSoft Jan 2025 — Present

Freelance software studio

- Built Sashimi, a Java 21 and Spring Boot 3.3 crypto ↔ fiat payment gateway with PostgreSQL, Redis, HD wallets, signed webhooks, idempotency, CI/CD and layered testing.
- Delivered n8n automation for inventory, sales and administrative workflows; integrated external APIs, ERPs and payment platforms.
- Worked directly with clients on requirements, documentation, training and adoption support.

System Architect & Full-Stack Developer — Clinical Platform Jan 2025 — Present

Freelance · Physiotherapy clinic

- Designed, built and deployed a production platform for appointments, room availability, clinical records, treatment tracking, billing, roles and permissions.
- Modeled PostgreSQL audit trails and soft deletes; containerized the stack and configured NGINX, TLS, GitHub Actions and Linux infrastructure.

ERP Developer & Automation Engineer — Distribution Dec 2024 — Apr 2025

- Implemented ERPNext, custom Frappe modules in Python and n8n workflows for multi-warehouse inventory.
- Built operational dashboards and managed production Linux infrastructure.

Systems & Development Lead — Nasami Jan 2023 — Nov 2024

- Managed Linux servers and on-premise infrastructure, improved e-commerce backend stability and automated repetitive administrative work.

SELECTED PROJECTS

Sashimi — Crypto ↔ fiat payment gateway

Java 21, Spring Boot 3.3, PostgreSQL, Redis, Docker, TRON, Solana, GitHub Actions, AWS Secrets Manager. Maven multi-module architecture, hosted checkout, SDK, USDT/USDC payments and layered observability. [Repository](#)

Caché — Polyglot social network

Spring Boot and Next.js application using Neo4j for the social graph, Redis for presence, MongoDB for the catalog and Cassandra for check-in history.

Pressure — Cross-platform video compressor

Rust and FFmpeg desktop application with NVENC / VideoToolbox detection, x264 fallback, a job queue and live telemetry.

TECHNICAL SKILLS

Backend: Java 21, Spring Boot 3.3, Python, REST APIs, Maven, Frappe

AI & automation: OpenRouter, DeepSeek API, OpenAI API, conversational agents, prompt architecture, n8n, ERPNext

Data: PostgreSQL, MariaDB, Redis, Neo4j, MongoDB, Cassandra, Flyway, schema design and audit trails

Infrastructure & quality: Linux, Docker, NGINX, GitHub Actions, AWS Secrets Manager, JUnit, Mockito, WireMock, Prometheus, Grafana

EDUCATION & LEADERSHIP

Bachelor's in IT Engineering — UADE Mar 2024 — Dec 2028

In progress · Data structures, algorithms and operating systems

Founder — IMAS+, UADE Computer Science Club

Languages: Spanish (native) · English C1 Advanced (Cambridge CAE certified)
